

Press Contact: SBSC researcher Kenneth Cole was interviewed by Sadie Babits, a reporter for Boise State Radio, on January 9, 2007. Babits is compiling a story on climate change research for the NPR series "Living on Earth," and is interested in Dr. Cole's research on packrat middens and effects of past climate change on vegetation. Contact: Kenneth Cole, SBSC, (928) 556-7466 ext. 230

Press Contact: Jeff Lovich of the Southwest Biological Science Center was quoted in a recent issue of Science News (Week of Jan. 6, 2007; Vol. 171, No. 1). Researchers demonstrated eye signalling in razorback suckers, a behavior similar to what Lovich reported earlier for turtles. Contact: Jeff Lovich, SBSC, jeffrey_lovich@usgs.gov
